

EUDR Supporting Information for Customer DDS Submission in TRACES

Supplier: Global Cellulose Fibers

Supplier Address: 6400 Poplar Ave Memphis, TN 38197

The Global Cellulose Fibers (“GCF”) products described below are supported by GCF’s internal due diligence processes for the European Union Deforestation Regulation (EU) 2023/1115 (“EUDR”). This document provides product, sourcing, risk assessment, and geolocation reference information to assist customers in completing their Due Diligence Statement submission in TRACES. The customer remains responsible for confirming shipment-specific details, including quantity, date or time range, geolocation data, and for completing and submitting the DDS in TRACES.

GCF has established policies and procedures governing the procurement of wood fiber into our paper mills to meet the definitions and intent of this law. Our [Global Responsible Fiber Procurement Policy](#) and [Supplier Code of Conduct](#) represent our commitment to responsible sourcing, as well as a commitment that the laws and regulations in the area of forest operations are being followed. Global Cellulose Fibers monitors all of its fiber suppliers to ensure compliance with GCF’s policies and procedures and said compliance is documented prior to the purchase of forest fiber.

Product Trade Name(s): SBSK Chemical wood pulp, soda or sulphate, other than dissolving grades
(Kraft Pulp Bleached)

Product Harmonized System (HS Code): 4703

Common and (Scientific) Species Names: Loblolly pine (Pinus taeda), Longleaf pine (Pinus palustris), Shortleaf pine (Pinus echinata), Slash pine (Pinus elliottii), Spruce pine (pinus glabra), Virginia pine (Pinus virginiana)

Shipment-specific quantity for customer DDS submission: To be confirmed by the customer based on the applicable shipment, invoice, purchase order, or forecast volume.

Country of production and all forest fiber sourcing: United States of America

Harvest date range for customer DDS submission: The harvest date range can be found in the GeoJSON file metadata provided with the applicable geolocation reference information.

Geolocation reference information for customer DDS submission: GCF will provide invoice-level URL links or reference files containing the applicable geolocation information for the fiber sourcing area associated with the products described above.

The GCF products described above are produced from fiber sourced in the United States and follow all applicable federal and state laws concerning the illegal harvesting of timber.

GCF provides this information to support the customer's completion of the Due Diligence Statement in TRACES. GCF confirms that due diligence in accordance with Regulation (EU) 2023/1115 has been carried out for the products described above, and that no or only negligible risk was identified that the relevant products do not comply with Article 3, point (a) or (b), of said Regulation.
